

Thermostrip® CBM - Circuit Breaker Monitor

Thermostrip® CBM will continuously monitor electrical components, panels and motors for overheating. If the indicated temperature is exceeded, the label will permanently change from silver to black.

Perfect for:

- Preventative maintenance and fire protection programs.
- Home monitoring

Thermostrip® CBM Features

- **Continuous Monitoring without Batteries**
- **Evidence of Temperature Excursion**
Peel off label and attach to maintenance log
- **Rapid Response**
Instant warning of possible component failure
- **Visual Inspection**
Bright yellow
Silver to black indicator
- **Small Size**
Allowing for breaker panel installation
- **Accurate $\pm 1^{\circ}\text{C}$**
- **Easy Installation**
Adhesive backed
Simply peel off protective backing and apply
- **Oil and Water Resistant**

Specifications

- Product Code:** P9024-50
- Temperature:** 130° F / 54°C
- Size:** 9.25mm (.37" dia.)
- Type:** Single temperature indicator
Color change at rated temperature
Self-adhesive
- Scale:** °F and °C
- Packaging:** Sold in units of 50
